L-TEMP2 temperature sensor for L-IOB universal inputs and L-STAT

Temperature sensor NTC10K for use with L-IOB universal inputs and L-STAT. For easy integration, sensor data are already stored in the respective LOYTEC configuration software.

Dimensions: 71x71x25 (LxWxH in mm)
Housing color: white
Installation: wall mount, screw or glue
Temperature range: -55 to 125 degrees Celsius
Resistance Tolerance: +/- 5 %, B-constant at 25 / 75 degrees Celsius: 3500K +/- 5 %
Sensor element: NTC10K

Make: Delta Intelligent Building Technologies (Europe) GmbH – LOYTEC A Brand of Delta

Description: L-TEMP2 temperature sensor for L-IOB universal inputs and L-STAT

Item no.: L-TEMP2 or equivalent
